experience the power of personal

we're in the people business.

From afar, they are flickering specks of light, unidentifiable energy illuminating every city in the buckeye state. So we seek them out. We journey from speck to speck until one day we're close enough to recognize a face and hear their voice.

We now know they are the one you've been waiting for. The one with the story that fits yours. They are your perfect candidate. Let us introduce you.

We help make companies stronger.

For more than fifty years, we've worked with clients in our home state. They have trusted us to find the right teammates - and build the right teams - to help them achieve their talent acquisition goals.

With our breadth of services and focus in healthcare and life sciences in Ohio, we personalize solutions that are right for your organization. Our services have a foundation in executive search, but we go deeper. You gain a strategic partner who listens to who you are, how you work, and what you need. We assess candidates for fit and optimize the people you have now to strengthen your organization.

We're all about the **power of personal**.

It's deliberate, intimate work relationships. It's how we treat our clients in our partnerships. It's how we treat our candidates when we talk to them about a new role that could take their career to the next level.

We bring our values - be in tune, get it done, be a leader, and love what you do - to every partnership. That's how we guarantee a personalized experience for your current and future team.
