

# Ohio Bioscience Career Fair

**February 25, 2019 | 2 – 5pm**

**Eastland-Fairfield Career &  
Technical Schools, Clark Hall**  
380 Granville Street  
Gahanna, OH 43230

## Exhibitor Booklet

### *Building your Bioscience Career with BioOhio*

BioOhio connects and serves Ohio's bioscience community to drive success in improving global quality of life. Founded in 1987, BioOhio is a member-guided service supporting Ohio's bioscience community through networking, advocacy, events, talent, information, and cost savings. BioOhio represents nearly 400 members that employ over 100,000 Ohioans - from Ohio's largest employers to emerging start-ups, schools & universities, research institutions, students, and individuals. BioOhio helps members identify partners, attract investment dollars, save money through affinity purchasing programs, build professional networks, promote news and services, tap into talent sources, support educational programs, and advocate in front of state and local officials. BioOhio is the Ohio affiliate for global bioscience associations AdvaMed, BIO, MDMA, and PhRMA.

# Exhibitors

## American Regent | Columbus

[AmericanRegent.com](http://AmericanRegent.com)

At American Regent, our values inspire us into action and our behaviors reflect the principles we live, every day. They influence how we work with each other as well as what we do: changing and saving lives. Every day. We offer potential employees career opportunities similar to those provided by major pharmaceutical companies, in a work environment based on the entrepreneurial spirit found in smaller, fast-paced companies. It's the best of both worlds—the advantages of a small pharma infrastructure coupled with the resources and strategic foresight of a global pharmaceutical business.

## Charles River Laboratories | Ashland/Spencerville

[criver.com](http://criver.com)

Charles River is an early-stage contract research organization (CRO). We have built upon our foundation of laboratory animal medicine and science to develop a diverse portfolio of discovery and safety assessment services, both Good Laboratory Practice (GLP) and non-GLP, to support clients from target identification through preclinical development. Charles River also provides a suite of products and services to support our clients' clinical laboratory testing needs and manufacturing activities. Utilizing this broad portfolio of products and services enables our clients to create a more flexible drug development model, which reduces their costs, enhances their productivity and effectiveness to increase speed to market.

**Contact information:** Brooke Molloy, PHR, Human Resources Generalist, [j.molloy@medpace.com](mailto:j.molloy@medpace.com)

Myriad Neuroscience's technology, GeneSight®, is a clinically proven test to enhance medication selection for healthcare providers, helping them get their patients on the right medications faster. Powered by CPGx™, GeneSight is a proprietary combinatorial pharmacogenomics technology that analyzes how an individual's genetic variations affect his or her response to medications and provides an actionable, easy to interpret report. GeneSight is used by healthcare providers to help patients that are affected by neuropsychiatric conditions including depression, anxiety, bipolar disorder, schizophrenia, ADHD, posttraumatic stress disorder (PTSD) and other behavioral health conditions, as well as chronic pain.
