# Exhibitors

## Advanced Testing Laboratory | Cincinnati

[ATLScience.com](http://ATLScience.com)

ATL's passion for co-creating concepts and solutions starts with our proactive and innovative mind-set. We offer full-service insourced and outsourced scientific functions for leading consumer goods, pharmaceutical and medical device organizations. Working in partnership with clients, we co-create and facilitate critical scientific process management that supports central business strategies from managing entire laboratories to supplementing your in-house capabilities.

Through our expertise, insight and resourcefulness, we help businesses reach their strategic goals by providing flexible, innovative solutions. As a result, our clients are able to elevate their existing proficiencies, protect the critical continuity of business, and produce consistent, predictable, high-quality results.

## Nationwide Children's Hospital | Columbus

[NationwideChildrens.org](https://www.nationwidechildrens.org)

The Abigail Wexner Research Institute aggressively supports the discovery of new knowledge and its translation into novel therapeutics and diagnostic tests to advance pediatric research. Unprecedented investment and inspired leadership have paved the way for tremendous progress. The impact on children who previously had little hope has been truly remarkable.

Our investigators traverse the spectrum of pediatric research from discovery science to population health with the common goal of improving the health and quality of life for children and their families. We recruit and train some of the brightest and most innovative researchers and clinician-scientists in pediatrics. Our researchers' dedication and commitment enable them to work together to accomplish more than could be imagined independently.

Here, discovery, translation and team science aren't just ideals. They are our foundation as we seek answers on behalf of children everywhere.

Visit the Nationwide Children's Hospital booth to learn about their open positions.

## RXQ Compounding | Albany

[RXQcompounding.com](https://www.rxqcompounding.com)

RXQ Compounding is an FDA registered 503B Outsourcing Facility located in Albany, OH (near Ohio University). Since our founding in 2014, RXQ has experienced considerable growth expanding from our initial 500 square foot office space to our current 40,000 square foot state of the art manufacturing facility. RXQ Compounding handles the process from start to finish, from raw material to finished product.

Current openings include:

Production Manager  
Quality Operations Manager  
Production Technician

Quality Systems Manager  
Training Manager

UES, Inc. is a leading-edge science and technology company providing customers with scientific research services and technical expertise since 1973. We provide R&D services in several disciplines including Bio and Nano-scale technologies, materials sciences, aerospace propulsion, surface engineering, electronic technologies, and additive manufacturing.

Current openings include:

Computational Biologist  
Associate Scientist – Flexible Sensors

Research Scientist – Flexible Sensors  
Research Scientist – Bio Sensors
